2024

Who Should be Certified?

Any Manhattan customer or partner participating in the Manhattan Value Partner program is eligible to become certified.

We recommend customers send at least one associate through the program to become the designated Subject Matter Expert for their company.

For partners, certification is crucial to ensuring your associates are knowledgeable on all of the latest updates. We have added Partner levels for our certification programs to show our customers which partners are investing their time and resources and are current on the latest product updates.

Become the expert on your team by becoming a Manhattan Certified Professional.

4SiGHT's experience with the Manhattan Certification program has been exceptional.

“The program has played a pivotal role in elevating our team's skills and expertise on the Manhattan Active WM **application**. The comprehensive and well-structured curriculum provided through the certification program has enabled our team to gain a deep understanding of the application's functionalities and best practices. Moreover, the program's emphasis on hands-on experience and real-world scenarios has been invaluable. The materials were well organized, and data setup was complete and walked through in detail and logical flow. **It has equipped our associates with the necessary knowledge and confidence to implement Manhattan Active WM for our clients.** We wholeheartedly endorse the Manhattan Certification Program.”

Why Certification?

Get the most of your Manhattan solutions while increasing your impact and growing your career by becoming a Manhattan Certified Professional.

Add Value—Faster

Supply chain and omnichannel commerce is complex, and the technology to support it can be applied in many ways. Certification allows you to add more value to your organization, and quickly. Manhattan Certification at the Professional level allows you to increase your impact and add value right when you need it—as you implement and upgrade your Manhattan solutions.

Expand Your Career

Certification is a great way to mark progress in your career. Demonstrate and create a measurable bar for what you have achieved. As business challenges present themselves, certified professionals are better equipped to take on new opportunities and are more likely to be entrusted with advanced projects and positions as their company's needs grow.

Empower Your Team

As a Certified Manhattan Professional, you will have the ability to coach and guide technical and operations team members in your Manhattan solutions. Lead with capability—your certified expertise will allow you to build a stronger capacity for solutioning across your team.
